Note: if you choose to renumber the test cases in this document, you will need to renumber also the test cases in the BTR accordingly.

2 Test Tools

Since there are no manual test cases (only automated) in the Charging Account Manager basic tests, there is no need for any test tools.

3 Test Environment

In order to run the basic tests, the following environment variables must be set:

- JAVA_HOME pointing to a Java 1.5 installation
- COBERTURA_HOME pointing to a Cobertura installation

4 Test Execution

This section specifies how to execute the Charging Account Manager basic tests.

4.1 Automated Test Cases

4.1.1 Test Areas

The following areas of automated test cases exist:

- Class tests

4.1.2 Test Documentation

The test cases are documented in the source code using javadoc.

4.1.3 Test Location

The automated test cases can be found here:

/vobs/ipms/mas/chargingaccountmanager/test

4.1.4 Execute Tests

Run the automated test cases using the ant target runtest.

Check test case coverage using the ant target runcoverage.

5 Test Cases

There are no manual test cases for the Charging Account Manager. All basic tests are automated.

6 Reporting Test Results

The test results are printed to stdout when executing the test cases.
